

Annual Sports Field Renovations

The City's annual sports field renovation program has begun. All soccer fields with the exception of those at Rimgate Park have been closed and fenced. Baseball fields will be closed and fenced after July 1, and all fields will reopen on August 18, 2012.

A total of 150,000 square feet of sports turf will be removed and replaced with new sod at the various sports fields. The existing sports turf will be aerified, seeded and fertilized, as well. In addition, baseball infields will receive new infield mix and will be laser leveled to Pony and Little League specifications.
